- All staff members are required to wear name tags at all times.
- All non-registered support staff are properly trained and aware of the limitations of their role.
- Appropriate confidentiality agreements have been signed by all relevant pharmacy staff in accordance with the *Personal Health Information Act (PHIA)*

**COMPLIANCE CHECKLIST**

Please indicate compliance by checking the appropriate space below. If the pharmacy is not in compliance, please provide a comment to describe how this will be remedied prior to the pharmacy opening.

	Compliant			Comments
	Yes	No	N/A	
<b>SIGNS AND POSTINGS</b>				
Sign with pharmacy trading name is fixed to the exterior of the building				
Sign clearly defining the prescription area is posted in the interior				
Hours of operation, including "lock & leave" hours, if applicable, are posted in view at the public entrance				
Hours of operation, including "lock & leave" hours, if applicable, are posted in view at the dispensary				
Pharmacy License will be posted in a conspicuous location, once received				

<b>PHYSICAL LAYOUT AND SECURITY</b>				
Dispensary is:				
at least 9.29 square metres, including the "No Patient Access" area, but excluding the Professional Products area, patient consultation area(s) and appropriate patient waiting area				
self-contained with a locable entrance but pharmacist is still accessible to the public				
secured with suitable alarms and motion detectors				
well-ventilated				
appropriately lighted				
clean and tidy				
The dispensary is able to be secured against entry by the public or other staff when a pharmacist or a pharmacy technician is not present in the pharmacy				
Does the dispensary have a lock and leave enclosure? If so, please complete the appropriate section on page 6.				
Pharmacy has a designated area for patient consultation that ensures visual and acoustical privacy and confidentiality and that is clean, safe, and comfortably furnished for the patient.				
Pharmacy premises is secured with suitable alarms, motion detectors and cameras in suitable locations and keys/alarm codes are limited to authorized pharmacy personnel (PLEASE INDICATE WHICH STAFF MEMBERS HAVE KEYS IN THE COMMENTS)				

<b>DISPENSARY EQUIPMENT AND SUPPLIES</b>				
Dispensary has at least 1.2 square metres of working counter space, excluding counter space occupied by equipment.				
Dispensary has:				
a secure computer system with:				
practice management software that has the capability to:				
store and report all required patient health information;				
identify each user who is granted access, control the access granted to the users, and create an accurate audit trail of access;				
scan prescriptions and other relevant patient records; and				

	Compliant			Comments
	Yes	No	N/A	
<b>DISPENSARY EQUIPMENT AND SUPPLIES (continued)</b>				
generate reports of prescription information chronologically and by drug name and strength, patient name, and prescriber name				
a connection to the provincial electronic health record through the Pharmacy Network				
suitable internet access to allow staff access to NLPB email as well as other electronic resources appropriate to pharmacy practice; and				
adequate backup and recovery systems in place to allow for information retrieval in the event of system failure or destruction				
printer(s) capable of printing all relevant labels and receipts as well as required reports (e.g. narcotic sales, transaction reports, patient profiles)				
suitable equipment that allows the staff to send, receive, and/or copy electronic or non-electronic documents (for example, a fax machine). Such equipment must be located in an area that preserves patient confidentiality;				
suitable equipment that allows staff to scan documents (including prescriptions and other patient records) and store them electronically (for example, a scanner);				
a refrigerator for the <u>exclusive</u> storage of drugs requiring refrigeration that meets the cold chain requirements as follows:				
A "purpose-built" or "modified" domestic refrigerator				
A thermometer that provides continuous monitoring				
a prescription balance (with a minimum sensitivity of 10mg) <b>OR</b> an electronic balance (with a minimum sensitivity of 10mg) <b>AND</b> a set of metric weights or a calibration weight				
scale will be regularly calibrated in accordance with manufacturer recommendations				
a record of calibration will be maintained				
a paper shredder or a service for the safe disposal of confidential information (IF THE DISPOSAL OF CONFIDENTIAL MATERIAL IS CONTRACTED OUT, PLEASE NAME THE COMPANY IN THE COMMENTS)				
a telephone that has a number listed in an appropriate telephone directory				
a sanitary sink with a supply of hot and cold water				
sanitary waste disposal				
an appropriate method to dispose of hazardous waste				
adequate shelf and storage space				
a sufficient supply of prescription and non-prescription drugs to support the professional services provided by the pharmacy				
required and recommended reference material in accordance with the <i>Standards of Pharmacy Operation</i> (see checklist on pg 12)				
suitable equipment to meet the pharmacy's needs (i.e. graduated cylinders, mortars & pestles, spatulas, counting trays, funnels, stirring rods and ointment pads)				
a sufficient amount of dispensing supplies to meet the pharmacy's needs (i.e. prescription & auxiliary labels, safety & non-safety vials, liquid medication bottles, ointment jars, distilled water)				
a policy in place to ensure that prescription and non-prescription stock is checked on a routine basis to prevent expired or soon-to-expire medication from being dispensed/sold				

	Compliant			Comments
	Yes	No	N/A	
<b>RECORD KEEPING AND INFORMATION MANAGEMENT</b>				
Pharmacy has appropriate policies in place with regard to the protection of personal health information in accordance with the <i>Personal Health Information Act</i>				
Pharmacy has a prescription filing system that is readily accessible to the dispensary staff but still capable of being secured against unauthorized access				
A backup of electronic records will be performed once daily and tested for recovery on a regular basis. A copy of the backup will be securely stored off-site or in a fire-proof and theft-resistant safe				
Physical patient records required by legislation, the <i>Standards of Pharmacy Operation</i> , and the Standards of Practice will be retained in a secure, but readily accessible format for a minimum of <b>3</b> years after being scanned and stored electronically. (Records that have not been scanned for electronic storage must be retained for a minimum of <b>10</b> years)				
Electronic patient records, including patient profiles, patient medication profiles, and scanned copies of the records identified above will be retained in a secure, but accessible format for a minimum of <b>10</b> years				
All physical and electronic records (including backups) will be adequately secured to protect them from unauthorized access, theft, use, or loss. (Security measures should include appropriate physical, administrative, and technical safeguards.)				
Physical records will be destroyed using an in-pharmacy shredder, a service for the safe disposal of confidential information, or by complete incineration.				
Electronic records will be erased or destroyed in such a manner that the information cannot be reconstructed.				

<b>SECURITY &amp; ACCOUNTABILITY PROCEDURES FOR NARCOTICS &amp; CONTROLLED DRUGS (INCLUDING BENZODIAZEPINES AND OTHER TARGETED SUBSTANCES, WHERE APPLICABLE)</b>				
All narcotic and controlled drugs are stored in a safe or secure lockable cabinet that is appropriately anchored to the floor that will be used solely for the storage of specified medications				
A computerized or manual perpetual inventory of narcotics and controlled drugs will be maintained				
Pharmacy has a policy in place to ensure a physical inventory count of narcotics and controlled drugs will be performed and documented at least once every three months				
A register or log of all receipts of narcotics and controlled drugs will be maintained in accordance with the Narcotic Control Regulations				
Purchase invoices (or photocopies thereof) will be retained in a readily retrievable format, filed in order by date and invoice number				
Pharmacy has a policy in place to ensure that random audits of purchase records will be conducted monthly to ensure they have been accurately recorded in the Perpetual Inventory Record				
A register or log of all sales of narcotics and controlled drugs, including store-to-store transfers and provisions of "Emergency Supplies", will be maintained in accordance with the Narcotic Control Regulations				
Pharmacy has a policy in place to ensure that random audits of sales records will be conducted monthly to ensure they have been accurately recorded in the Perpetual Inventory Record				
Pharmacy has a system in place for prescriptions for narcotics and controlled drugs (including purchases of exempted codeine products) to be filed separately from non-narcotic prescriptions, in sequence by date and transaction number and retained in a readily retrievable, appropriately bundled and labeled format				

	Compliant			Comments
	Yes	No	N/A	
<b>PROVINCIAL DRUG SCHEDULES</b>				
The Professional Products area of the pharmacy is easily identifiable and in an area immediately adjacent to the dispensary under the direct supervision of a pharmacist				
The "No Public Access" area of the dispensary is easily identifiable but separated from the Professional Products area so that there is no opportunity for patient self-selection				
All Schedule III products are located in the Professional Products area				
All Schedule II products are located in the "No Public Access" area so that they can be sold only after consultation with a pharmacist				
Exempted codeine products will be sold in accordance with the <i>Standards of Practice regarding the Sale of Exempted Codeine Products</i>				
All purchases of exempted codeine products will be documented on the patient profile and appropriately labeled for use by the patient				
Dimenhydrinate products will be sold in accordance with the <i>NLPB Guidelines regarding the Sale of Dimenhydrinate</i> (Appendix C of the <i>Guide to the Provincial Drug Schedules</i> )				

**ADDITIONAL SERVICES**

Please complete the appropriate section(s) below, if applicable. If the pharmacy is not in compliance, please provide a comment to describe how this will be remedied prior to the pharmacy opening.

	Compliant			Comments
	Yes	No	N/A	
<b>LOCK AND LEAVE</b>				
The lock and leave enclosure is constructed in such a way to physically and securely separate the dispensary from the rest of the pharmacy				
When the lock and leave enclosure is secured, only pharmacists or registered pharmacy technicians may enter the dispensary for any reason.				
If prescriptions are to be made available for patient pick-up when the lock and leave enclosure is secured and the pharmacist is not present, the following requirements WILL BE MET:				
All storage considerations will be taken into account including breakage and refrigeration				
The patient's confidentiality will be protected at all times by ensuring the outer package contains only the patient's name and address				
All patients who pick up these prescriptions will receive proper and sufficient counseling				
A documented paper trail of all prescriptions picked up, including signatures of the recipients or their designated agent, will be retained in the pharmacy				

<b>LOCAL DELIVERY</b>				
All storage considerations will be taken into account including breakage and refrigeration				
The patient's confidentiality will be protected at all times by ensuring the outer package contains only the patient's name and address				
Patients requesting delivery of prescriptions to a person other than themselves will be asked to provide the pharmacy with written delegation of authority for that person to act as the patient's agent in accordance with the Standards.				
All patients to whom prescriptions are delivered will receive proper and sufficient counseling				
A documented paper trail of all prescriptions delivered, including signatures of the recipients or their designated agent, will be retained in the pharmacy				

<b>PROVISION OF COMPLIANCE PACKAGES</b>				
The patient and/or patient caregiver will be counseled on the unique nature of the package including how to properly use and store the package				
All compliance packages will be appropriately labeled so that all drugs in the package may be readily identified				
Pharmacy has a system in place to ensure that an appropriate record of each package will be retained in a easily retrievable format				

<b>SERVICE TO LONG TERM CARE FACILITIES</b>				
Please indicate how many long term care facilities will be serviced by your pharmacy				
Please indicate how many long term care beds will be serviced by your pharmacy				
Pharmacy has developed a Policy and Procedure manual regarding medications and the pharmacy services provided to the facility, a copy of which has been provided to the facility				

<b>SERVICE TO PERSONAL CARE HOMES OR COMMUNITY CARE HOMES</b>			
Please indicate how many personal care homes or community care homes will be serviced by your pharmacy			
Please indicate how many personal care home or community care home beds will be serviced by your pharmacy			
Pharmacy has developed a Policy and Procedure manual regarding medications and the pharmacy services provided to the home, a copy of which has been provided to the home			
A pharmacist will visit and audit the medication room or storage area at the home at least once annually			
Resident medication reviews will be conducted at least annually			
Pharmacists will provide inservicing to all personal care home staff regarding correct medication usage, storage, administration and recording procedures			

<b>EXTENSIVE OR SPECIALIZED COMPOUNDING INCLUDING COMPOUNDING OF STERILE PRODUCTS</b>			
Please describe the types of extensive or specialized compounding that will be performed by the pharmacy			
All pharmacists engaging in these specialized areas are knowledgeable and appropriately trained			
The pharmacy will follow established standards for the preparation of these specialized products in accordance with a recognized source (e.g. Canadian Society of Hospital Pharmacists)			

<b>ADMINISTRATION OF DRUG THERAPY BY INHALATION OR INJECTION</b>			
ALL pharmacists that will administer drug therapy by inhalation or injection have successfully completed an approved education program and are authorized by the Board to participate in such services			
The operational standards outlined in the <i>Standards of Practice</i> WILL BE MET including:			
The location where injections will be administered is designed and laid out to allow for all inhalations and injections to be provided in a private patient care environment that is clean, safe, and comfortably furnished for the patient.			
This injection location allows for suitable post-therapy observation and is equipped with all necessary emergency support equipment and supplies that may be required (e.g. appropriate drugs, resuscitator bag, ice/cold compresses)			
The pharmacy's Policy and Procedure Manual includes a section on the administration of drugs by inhalation or injection that covers, at a minimum, drug storage and handling procedures, documentation procedures, post-inhalation or -injection monitoring options, emergency protocols, and universal precautions.			
All pharmacy staff will have access to the references required by the Standards			
The practice standards outlined in the <i>Standards of Practice</i> WILL BE MET including:			
ALL documentation required by the Standards, including prescriptions, forms, and communications, will be retained in the pharmacy in a readily accessible format for a minimum of 10 years			

<b>PRESCRIBING (INCLUDING FOR MINOR AILMENTS)</b>			
ALL pharmacists that will prescribe have successfully completed the required orientation program and are authorized by the Board to participate in such services			
The operational standards outlined in the <i>Standards of Practice</i> WILL BE MET including:			
The location is designed and laid out to allow for all patient consultations to be provided in a private patient care environment that is clean, safe, and comfortably furnished for the patient.			
The practice standards outlined in the <i>Standards of Practice</i> WILL BE MET including:			
ALL documentation required by the Standards, including prescriptions, forms, and communications, will be retained in the pharmacy in a readily accessible format for a minimum of 10 years			

<b>OPIOID DEPENDENCE TREATMENT SERVICES</b>			
Please indicate how many patients will be receiving methadone for opioid dependence (if known)			
Please indicate how many patients will be receiving buprenorphine for opioid dependence (if known)			
ALL pharmacists (including relief) that will be participating in opioid dependence treatment services have successfully completed an approved education program and are authorized by the Board to participate in such services			
The operational standards outlined in the <i>Standards of Practice</i> WILL BE MET including:			
The pharmacy is registered with the Board as a site for opioid dependence treatment			
Pharmacy is designed and laid out to allow for all pharmacist-patient discussions, witnessed doses and the provision of take home doses to take place in an area of visual and acoustical privacy that is clean, safe, and comfortably furnished for the patient			
The pharmacy is prepared to accommodate a daily dosing requirement for patients and maintains the necessary hours to do so			
The pharmacy's Policy and Procedure Manual includes a section on the provision of medications for the treatment of opioid dependence			
All pharmacy staff will have access to the references required by the Standards			
The practice standards outlined in the <i>Standards of Practice</i> WILL BE MET including:			
ALL pertinent information and documentation will be collected prior to administering opioid dependence treatment to a patient (verbal discussion with physician regarding patient treatment agreement, a written physician-pharmacist agreement received, history from previous pharmacy obtained, if applicable)			
Verbal discussion with patient about terms and expectations of opioid dependence treatment services and a patient-pharmacist agreement is in place prior to administering opioid dependence treatment and as needed thereafter			

<b>OPIOID DEPENDENCE TREATMENT SERVICES (continued)</b>			
Methadone and buprenorphine-naloxone (including prepared doses for patients) will be stored in a secure location at all times (i.e. during hours of operation and when the pharmacy is closed for business)			
ALL doses that require witnessing of ingestion will be witnessed by a PHARMACIST; authorized take-home doses will be given directly to the patient by a PHARMACIST; ALL administration activities will be accurately recorded in a patient's Administration Log			
ALL methadone doses will be prepared using an unflavoured, commercially-prepared 10 mg/mL solution and doses will be measured using a device that has an accuracy of +/- 0.1 mL			
ALL documentation required by the Standards, including prescriptions, forms, and communications, will be retained in the pharmacy in a readily accessible format for a minimum of 10 years			

**PRESCRIPTION LABELS**

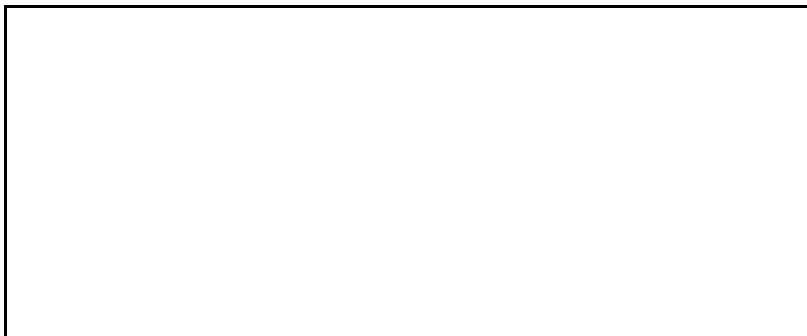

Please attach a copy of a de-identified REGULAR prescription label:

Please attach a copy of a de-identified MULTI-INGREDIENT (i.e. COMPOUND) prescription label:

If applicable, please attach a copy of a de-identified METHADONE WITNESSED DOSE prescription label:

If applicable, please attach a copy of a de-identified METHADONE TAKE-HOME DOSE prescription label (including required auxiliary):
