Audio is also available via telephone:

1-844-614-9197 (toll-free)

800-5685 (St. John's and area)

Conference ID: 177 789 18#

Ms. Patten will provide insight into the vital role that pharmacists play in the delivery of opioid dependence treatment.

Ms. Delaney will share her clinical and dispensing expertise by providing information on various opioid-agonist therapy (OAT) options. Current and emerging medications will be discussed.

This webinar will be of interest to prescribers, pharmacists, health care providers, persons with lived and living experience, family members, and stakeholder community agencies.

**Hosted by the:**

***Provincial Opioid Dependence Treatment  
Centre of Excellence***
