

Newfoundland and Labrador Pharmacy Board

Changes to the Provincial Drug Schedules

The following additions to the Provincial Drug Schedules have been approved effective August 13, 2020 to reflect the NDSAC recommendation of June 26, 2020, finalized on July 28, 2020:

“Acetaminophen and ibuprofen in oral, fixed-dose combinations, in package sizes containing either more than 20,000 mg of acetaminophen or more than 6,000 mg of ibuprofen”

has been added to Schedule II.

“Acetaminophen and ibuprofen in oral, fixed-dose combinations, in package sizes containing 20,000 mg or less of acetaminophen and 6,000 mg or less of ibuprofen”

has been added to Schedule III.
